Obligations: For the purposes of the USAID spending reflected in this chart, obligations consist of legally-binding agreements that place funds into grants and contracts with implementing partners. Transfers of USAID funds to other entities such as the Multi-Donor Trust Fund are considered fully obligated and disbursed.

Disbursements: Payments that liquidate obligations; i.e., usually payments made to USG implementing partners as work is done.

¹: The Recovery, Reconstruction & Development Assistance category captures data from the Office of U.S. Foreign Assistance Haiti budget plus Centers for Disease Control (CDC) funding for fiscal years 2010 (Base & Supplemental) and 2011-2017. It also includes debt relief.
