

QSI INTERNATIONAL SCHOOL OF DILI

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, current unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in spring 2022. If a field is not specified, please reach out to the REO listed below for more information.

QSI Dili opened its doors to the community in August of 2005 in order to provide high-quality education in English for children living in Dili. We strive to achieve this by creating a comfortable, engaging learning environment that includes the most up-to-date curriculum and resources available. Our educators are experienced and certified in their country of origin with notable credentials. Read more on the [Overseas Schools Fact Sheet](#).

MISSION & VISION

With students from over 15 different nationalities, the Preschool through Secondary School programs at QSI International School of Dili focus on the development of 21st Century Learning skills such as critical thinking and problem solving; leadership and collaboration; cultural awareness and digital literacy.

ADMISSIONS

The school's admission criteria and procedures can be found at dili.qsi.org/admissions.
